

'The Big Kids' - Year 5 to Year 6 activities

### Design Time

If you owned your own café, what would you call it and what would your logo be?  
Design it here:

'The Big Kids' - Year 5 to Year 6 activities

## Money Matters

Have a think about all the foods included in your school lunches over the course of a week.

List everything down below.

Then use a supermarket catalogue or website to find out the cost of each item. Then add up the total.

Just how much does your lunch cost?

### Healthy Habits

Imagine you are introducing a new Healthy Living program to your school. What would it be?

It could be something to do with food or exercise or it could be something to do with mental health and well-being.

Think carefully about what you would like to introduce and plan all the details of the program:

- When will it operate?
- How long is each session?
- Is it for all year levels?
- What materials/resources do you need?
- Will you need funding (money)? What are the overall aims of the program? Don't forget to give the program a name!
