

Marvellous Measurement

Jolly Jumper

Jumps	Length of Jump (cm)
1	
2	
3	
Total Length	

There are 10mm in a cm.
There are 100 cm in a metre.
There are 1,000 metres in a kilometre

I jumped a total
of _____ cm, so I
jumped _____
metres.

I jumped a total
of _____ cm, so I
jumped _____
millimetres.

I jumped a total
of _____ cm, so I
jumped _____
kilometres.

Notes to help:

When converting from centimetres to metres, divide by 100.

When converting from centimetres to millimetres, multiply by 10.

When converting from metres to kilometres, divide by 1000.

Clever Conversions

Fill in the missing columns in the table to convert the measurements:

Item Measured	MM	CM	M	KM
